## EXPERIENCE

### Product Designer

SocialTalent Mar 2024 - Sept 2024 Dublin, Ireland

SocialTalent is an AI-Driven Learning Platform focused on hiring and talent management, offering expert-led training to improve recruitment.

- Built scalable design system supporting **voice/text-AI features** (chat, test, scoring, dynamic Q&A), reducing sprint timelines by **60%** via reusable components/tokens.
- Collaborated with PMs and engineers to implement voice-AI prototypes through iterative testing cycles.
- Optimized admin workflows, cutting navigation time by **68.9%** and task completion by **72%** via 50+ user tests
- Presented design rationale to stakeholders, aligning AI features with enterprise objectives.
- Monitored engagement metrics via **Maze** to inform component library iterations.
- Enabled **multilingual AI chat, Colour, Information hierarchy, Typography and functionality** using WCAG 2.0 AA-compliant components.
- Reduced support tickets by **28%** by implementing user-centred KPIs, self-support articles with walkthroughs and simple UX experience reducing friction and navigation time.

### UI & UX Designer

memoriaCall Jun 2021 - Mar 2024 Dublin, Ireland

MemoriaCall is a video conferencing platform that leverages AI to enhance productivity by automating meeting summaries, task generation, and providing contextual insights

- Designed **AI workflows** for Clara (AI assistant), enabling real-time task generation and contextual Q&A pre, during or post meetings, effectively saving users time.
- Balanced technical constraints with user needs in mobile-first design decisions, driving **increase in engagement** across platforms - mobile **60% and** 23% web adoption through responsive layouts.
- Partnered with C-suite clients to define AI assistant requirements through design sprint workshops.
- Created **predictive AI interaction patterns** that automated **70% of manual tasks** (summaries, action items), saving users **7+ weekly hours** via workflow mapping, research and interviews.
- Worked closely with engineers to implement **voice-AI prototypes** by understanding friction points, through iterative design process and user testing.

### Web & UI Designer

LOOOOP Studios Mar 2020 - Jan 2023 Contract

- Engineered **WCAG 2.0 AA-compliant interfaces** using semantic HTML/CSS, boosting accessibility scores by **85%** through ARIA labels and contrast-optimized palettes and reduced **30%** cognitive load.
- Created **Figma component libraries** with auto-layout grids, cutting redesign time by **40%**.
- Authored **developer handoff documentation** that reduced using Zeplin token integration.
- Led **Miro design sprints** aligning marketing/dev teams, accelerating project delivery by **20%** through atomic design workshops.

### Visual Designer

Ginger Monkey Mar 2020 - Jun 2021 Haryana, India

- Directed 35+ client discovery workshops establishing brand-aligned UX requirements, achieving 95% project scope accuracy
- Developed award-winning designs using AR for INEX Campaign of the Year 2021 through user-centred asset pipelines
- Streamlined creative asset management through Sketch and Adobe libraries, cutting production time by 30% for 50+ marketing campaigns.
- Implemented client feedback integration system that reduced post-launch revisions by 28% through iterative designing for emails.
- Produced 2000+ marketing assets including web interfaces, mobile layouts, and brand collateral

## SUMMARY

With 6 years of experience in crafting cross-platform solutions that seamlessly integrate AI innovation and user-centred design, I have a proven track record in developing design systems that enhance development efficiency.

I specialize in implementing Google PAIR AI research and designing AI voice/text interfaces and AI workflows. My strong foundation in computer science, combined with leadership in design, enables me to deliver exceptional products.

## SKILLS

### Technical Stack

Figma - Maze - AB Tasty – Miro - Accessibility (WCAG 2.0 AA) -Zeplin – Adobe Suite - React - HTML/CSS

### Core Competencies

AI UX Patterns - Multilingual Systems - Ethical Design - Conversational Interfaces  
Design Methodologies - Design System - UX Analytics

## CERTIFICATIONS

Google | Foundation of UX design **(2023)**  
Microsoft | Fundamental’s of design **(2020)**  
Google | PAIR AI Guidelines **(2024)**

## EDUCATION

M Sc. Cyber Security  
National College of Ireland  
2021 - 2022 Dublin, Ireland

B. Tech in Computer Science  
Manav Rachna University  
2016 - 2020 Haryana, India
